

Foldable Culminating Projects

PREVIEW

from Activities To Teach

Engaging Way for Students to organize and present their unit learning.

Display Option G

Using different foldables and manila file to create their own stand-up mini-presentation station.

Vertical Panel Foldable ~ 3 Panel

3 Panel Vertical Foldable -

- 3 Layers
- 3 Classifications
- 3 Levels of Organization

Materials Needed

- Paper
- Scissors
- Coloring Utensils
- A Ruler if using the enhanced tab design.

Step 1: Fold paper in HALF the long way.

Step 2: Turn the results from step 1 horizontally.

Step 3: Fold the paper into THIRDS (approx 9 cm) the wide way vs. the long way like in Step 1. The dashed line indicates the fold. Untuck to make the paper flat.

Step 4: Untuck the paper to reveal a 3 panel holding tan style paper. Rotate so that the fold is as the top.

Step 5: Cut along the folds (dotted lines in diagram) on the TOP half of the paper to the middle fold only. This will create the three panel effect.

Step 6: Turn the folded paper back to its vertical position, create a vertical panel foldable.

Enhance with a TITLE Tab on the Side

Add Step 1A to create the title tab.

Step 1A: Using a ruler measure off a 2 cm (approx 3/4 inch) section from the edge, going the tall way. This "line" creates the "ledge" you will fold to in Step 1B.

Step 1B: Fold paper in half the long way up to the line you created at the 2 cm mark.

Step 2: Pin Step 2 on the tucking process.
